

Need your I/O integrated, tested and ready to go immediately upon arrival? Tired of all of those phone calls to your individual product distributors, the cabinet supplier and the 'so called' integrator? Going back and forth with sketches showing what you want and what the product really looks like?

NovaTech has the solution.

Order your integrated I/O from NovaTech and remove those assembly, wiring and testing worries. Once it arrives at your dock and your field cables are installed, you're ready to energize.

Key Features

- Floor-mount, free-standing or wall-mount cabinets
- Single or multiple bays
- Modular or continuous welded design
- Single door or two door design, with both front and rear access if required
- Accessories to include windows, lights, drip shields, painted or galvanized sub-panels
